

June 1, 2009

Dear Danielle:

Thanks for sending your book, "Mommy, I Feel Funny!" It is a charming account of one child's discovery and treatment of epilepsy, and will go far in alleviating the concerns of parents and children whose lives are affected by this common disease. More importantly, it will encourage children with epilepsy to not be afraid, to live life to it's fullest, and to seek the best treatment for their condition, one that can usually be controlled completely as in this child's case.

With all best wishes,

A handwritten signature in black ink, which appears to read "Carl W. Bazil". The signature is fluid and cursive, with a long, sweeping tail on the final letter.

Carl W. Bazil, M.D., Ph.D.
